36th International Symposium on Capillary Chromatography

May 27 - June 1, 2012

Palazzo dei Congressi
Riva del Garda
Italy

TECHNIQUES

-  Capillary Gas Chromatography
-  Micro Liquid Chromatography
-  Electromigration Methods
-  Microfabricated Analytical Systems - Lab-on-a-chip
-  Column Technology
-  Coupled and Multidimensional Techniques
-  Comprehensive Techniques
-  Hyphenated Techniques
-  Sampling Systems
-  Sample Preparation
-  Trace Analysis
-  Automation

APPLICATIONS

-  Environmental Applications
-  Energy, Petrochemistry and Industrial Applications
-  Biomedical and Pharmaceutical Applications
-  Analysis of Natural Products, Food, Flavours and Fragrances
