Welcome Message

On behalf of the organizing committee, we welcome all of you to the Asia and China-Japan-Korea Symposium on Analytical Chemistry (Asia/CJK-2017), which will be held at Science University of Tokyo, Katsushika, Tokyo, in the Annual Meeting of Japan Society for Analytical Chemistry from September 9th to 12th, 2017.

The CJK symposium on Analytical Chemistry is considered and designed to promote the interactions and communications among scientists working on a variety of aspects of analytical chemistry from China, Japan and Korea. In this Asia/CJK2017, Japan Society for Analytical Chemistry (JSAC) will hold the symposium in the 1st Annual meeting of JSAC that will be held by the JSAC headquarter. And the symposium will include stimulating plenary lectures and keynote presentations from the analytical scientists of three countries. In addition, special plenary lectures by the front line analytical sciences from UK, USA and Japan will be included. As a result, this symposium will be a strong promoter of international collaborations. We believe that this great event will provide all the participants a high-quality and intellectually stimulating venue. The symposium has received many abstracts from well-known scientists to junior researchers and students as well.

We appreciate the support of Japan Society for Analytical Chemistry for Asia/CJK-2017. We would also like to take this opportunity to express our sincere gratitude to all members of International Advisory Committee for their valuable advices and suggestions in various aspects, and to the organizer, Science University of Tokyo.
